

PANDEY

ENVIRONMENTAL, LLC

PANDEY Environmental is an environmental consulting firm, which has built its reputation on the ability to provide the highest quality engineering and environmental consulting services with unparalleled efficiency. Our professionals are encouraged and challenged to provide innovative solutions to the issues faced by our loyal and diverse client base. Client referrals continue to be instrumental in our growth, and our highest compliment.

Our engineers, scientists and planners offer over 25 years of experience in the assessment of natural and man-altered aspects of the environment, and in the design and implementation of successful corrective and restorative procedures.

We derive great satisfaction from guiding clients on revitalizing areas of urban blight, and transforming them into more productive uses that benefit our clients, other stakeholders, and local communities.
